I. INTRODUCTION

1. The Federal Communications Commission biennial commercial broadcast ownership report, FCC Form 323, is designed to obtain comprehensive data on racial and ethnic minority and female broadcast ownership – statistically valid broadcast ownership information data that can be compiled and aggregated and used as a source for further analysis. The Commission requires full power commercial television and radio broadcast stations and low power and Class A television stations, including any of these stations owned by sole proprietorships and partnerships of natural persons, to file a biennial ownership report using the same “as of” date (October 1) for reported data during each filing cycle. A station’s report must identify all of its attributable interest holders.¹ Form 323 also requires all attributable interest holders to obtain and provide FCC registration numbers (CORES FRNs) to facilitate the tracking and cross-referencing of reported ownership interests.² These requirements have been in place since 2009.

2. This report presents the results of the third data collection using the current version of Form 323 and reflecting attributable ownership interests as of October 1, 2013.³ The Bureau previously released a report on November 14, 2012, based on the first and second data collections using the revised Form 323, which reflected attributable ownership interests as of November 1, 2009⁴ and October 1, 2011, respectively.⁵ These data represent three snapshots of broadcast ownership in a series of planned biennial data collections that, taken together, should provide a reliable basis for analyzing ownership trends in the industry, including ownership by racial and ethnic minorities and women. The Media Bureau compiled the 2013 biennial ownership filings using both algorithmic analysis and manual adjustments to obtain the best picture of ownership status and trends that the data would permit. The Bureau presents its findings in the narrative text below and in greater detail in the attached tables and accompanying spreadsheets.⁶

3. Users of these data should bear in mind that control of a licensee in the usual parlance of our cases and procedures indicates either *de jure* or *de facto* control by identifiable individuals or groups. Because the Bureau reports interests here that are held collectively by certain classes of individuals who

¹ Attribution of an ownership interest to an individual or entity is governed by the Commission’s rules and can be a complex determination. It represents the Commission’s best judgment concerning when an interest is sufficient to confer on the owner a potential degree of influence over a licensee that should be cognizable for purposes of applying the Commission’s broadcast ownership rules. *See* the notes to 47 C.F.R. § 73.3555.

² Currently, filers are permitted to obtain a Special Use FRN for individuals (not entities) reported on the Form 323 in lieu of a CORES FRN.

³ The information in this report meets the Commission’s information quality guidelines. *See Implementation of Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility and Integrity of Information Pursuant to Section 515 of Public Law No. 105-554*, Information Quality Guidelines, 17 FCC Rcd 19890 (2002).

⁴ For a variety of reasons, the first “as of” filing date was slightly delayed – from October 1, 2009, to November 1, 2009.

⁵ *2010 Quadrennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*, MB Docket No. 09-182, Report on Ownership of Commercial Broadcast Stations, 27 FCC Rcd 13814 (Med. Bur. 2012) (“*2012 323 Report*”). Any comments received on this report were the subject of Commission consideration in the *2014 Quadrennial FNRPM. 2014 Quadrennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*, MB Docket No. 14-50, Further Notice of Proposed Rule Making and Report and Order, FCC 14-28 at ¶¶ 259-62 (rel. Apr. 15, 2014).

⁶ The accompanying spreadsheets present ownership characteristics for each broadcast station, identified by its Facility ID. In a separate spreadsheet we also provide the current call sign for each broadcast station. We note that the data contained in each Form 323 ownership report are publicly available and may be downloaded from the Commission’s Consolidated Database (CDBS) and then aggregated, cross-referenced, and searched electronically. *See* <http://transition.fcc.gov/mb/databases/cdbs/>.

may have no connection with one another beyond their shared classification by gender, ethnicity, or race, the fact that a particular class of individuals may have a majority of the voting stock or partnership interests in a licensee does not necessarily indicate control by that class of individuals. Rather, absent a single majority interest holder, control of these stations would be determined on a *de facto* basis, which requires access to facts not reported on Form 323. Accordingly, this report refers to these collective interests as “majority” interests, rather than “controlling” interests. Similarly, of course, where no majority interest is reported, a *de facto* analysis would be required to determine control.⁷ However, when a single individual, of whatever classification, holds a majority voting interest in a licensee, this would indicate *de jure* control by that individual and is considered a controlling interest. This document also reports the attributable positional interests⁸ of individuals by their classifications. These individuals may exercise control of a licensee where no single individual holds a majority of the voting interests in that licensee and are more likely to do so where no attributable voting interests are identified, but this cannot be inferred from the Form 323 data alone. As with all *de facto* control determinations, the specific facts of each case would be required to determine actual control. Finally, our classification of a licensee in this report as having “No Majority Interest” does not necessarily mean that no classification of persons in this report has a majority interest in the station, only that these facts cannot be determined from the reported Form 323 data in the absence of additional information.

4. **Current Broadcast Ownership by Gender, Ethnicity, and Race.**⁹ The following summary uses only data from the 2013 FCC Form 323 biennial reports and thus represents information current as of October 1, 2013 (the most current biennial information available).

5. *Broadcast ownership and gender.*¹⁰

- Women collectively or individually held a majority of the voting interests¹¹ in 997 broadcast stations, comprised of 87 full power commercial television stations (6.3 percent) of 1,386 stations¹²; 217 low power television stations, including Class A stations

⁷ Because ownership of less than 5 percent of the outstanding voting stock of a corporation is not attributable, it is common for portions of a licensee’s voting stock not to be reported on Form 323, particularly where the licensee is a public, widely held entity. In some cases, no attributable voting stock may be reported. *See* 47 C.F.R. § 73.3555, note 2a.

⁸ Officers and directors of broadcast licensee entities, for example, are attributable based on their positions. *See id.* Note 2g. The relevant question on Form 323 identifies the following additional categories of positional interests: General Partner; Limited Partner; LC/LLC/PLLC Member/Owner/Stockholder; Attributable Creditor; and Attributable Investor. The question also provides an “Other” option for users to specify an attribution category not contained in our list. All stations reporting persons identified by any one of these categories are included in Tables 2 and 3.

⁹ The gender, ethnicity and race categories identified in Form 323 follow the guidance provided by the Office of Management and Budget. *See* Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity, 62 Fed. Reg. 58, 782 (Oct. 30, 1997).

¹⁰ Computer analysis of the Form 323 data does not identify as majority owned combinations in those situations where the aggregate votes of neither gender exceed 50 percent, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of either the same ethnicity or race together exceed 50 percent (e.g., a station where Hispanic/Latino females hold 40 percent of the vote and Hispanic/Latino males hold 40 percent of the vote). In such cases the stations are identified as no majority interest in Table 1.

¹¹ Voting interests include, for example, voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company.

¹² Percentages of stations held are calculated on the basis of the number of stations filing usable data relevant for each category of ownership, not on the basis of the total number of licensed stations. Stations that did not file (continued....)

(13.1 percent) of 1,651 stations; 310 commercial AM radio stations (8.3 percent) of 3,737 stations; and 383 commercial FM radio stations (6.7 percent) of 5,714 stations.

- Men collectively or individually held a majority of the voting interests in 9,214 broadcast stations, comprised of 1,005 full power commercial television stations (72.5 percent) of 1,386 stations; 1,246 low power television stations, including Class A stations (75.5 percent) of 1,651 stations; 2,737 commercial AM radio stations (73.2 percent) of 3,737 stations; and 4,226 commercial FM radio stations (74.0 percent) of 5,714 stations.

6. *Broadcast ownership and ethnicity.*

- Hispanic/Latino persons collectively or individually held a majority of the voting interests in 571 broadcast stations, comprised of 42 full power commercial television stations (3.0 percent) of 1,386 stations; 155 low power television stations, including Class A stations (9.4 percent) of 1,651 stations; 194 commercial AM radio stations (5.2 percent) of 3,737 stations; and 180 commercial FM radio stations (3.2 percent) of 5,714 stations.

- Non-Hispanic/Latino persons collectively or individually held a majority of the voting interests in 9,879 broadcast stations, comprised of 1,052 full power commercial television stations (75.9 percent) of 1,386 stations; 1,271 low power television stations, including Class A stations (77.0 percent) of 1,651 stations; 2,912 commercial AM radio stations (77.9 percent) of 3,737 stations; and 4,529 FM commercial radio stations (79.3 percent) of 5,714 stations.

7. *Broadcast ownership and race.*

- Racial minorities collectively or individually held a majority of the voting interests in 499 broadcast stations, 41 full power commercial television stations (3.0 percent) of 1,386 stations; 64 low power television stations, including Class A stations (3.9 percent) of 1,651 stations; 225 commercial AM radio stations (6.0 percent) of 3,737 stations; and 169 commercial FM radio stations (3.0 percent) of 5,714 stations. Ownership of majority interests by racial group was as follows:
 - American Indian/Alaska Natives owned 49 broadcast stations.
 - Asians owned 184 broadcast stations.
 - Black/African Americans owned 199 broadcast stations.
 - Native Hawaiian/Other Pacific Islanders owned 36 broadcast stations.
 - Persons of two or more races owned 31 broadcast stations.¹³
- Whites collectively or individually held a majority of the voting interests in 9,919 broadcast stations, comprised of 1,070 full power commercial television stations (77.2

(Continued from previous page) _____

ownership reports, stations that filed insufficient data, as well as stations that are not included in the specific ownership category are not included in these calculations.

¹³ In March 2013, the Commission revised the Form 323 and its Instructions to remove the “Two or more races” category from the Gender/Ethnicity/Race question at the request of the Office of Management and Budget (OMB) to comply with current Federal standards for the collection of racial and ethnicity data. See Revised Supporting Statement for Information Collection 3060-0010 (May 2013), available at http://www.reginfo.gov/public/do/PRAViewDocument?ref_nbr=201302-3060-019. Filers are now able to select more than one race category for an individual. For purposes of determining ownership interests by racial group and for consistency over the three reporting periods, this report continues to identify an individual as “two or more races” if more than one race category is selected for that individual.

percent) of 1,386 stations; 1,386 low power television stations, including Class A stations (83.9 percent) of 1,651 stations; 2,893 commercial AM radio stations (77.4 percent) of 3,737 stations; and 4,570 commercial FM radio stations (80.0 percent) of 5,714 stations.

II. SUMMARY OF RESULTS

8. This section presents a summary of FCC Form 323 data for 2013 by category of ownership (majority voting ownership interest, attributable (ownership) interest and type of attributable interest) and gender, ethnicity, and race. Results are reported by service, broken down into full power commercial broadcast television stations, Class A television stations, low power television stations, commercial AM radio stations, and commercial FM radio stations.¹⁴ For purposes of comparison, we also include in the summary information from our 2011 biennial ownership data.

9. The information is provided in a series of tables presenting the sources of ownership attribution. The first set of tables in Appendix C in the report identifies the number of stations for which an individual or a group of individuals of the same race, ethnicity, or gender holds, either individually or collectively, an attributable voting interest in the licensee that exceeds 50 percent (*i.e.*, a majority ownership voting interest which includes voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company). The second set of tables in the report identifies the number of stations that have at least one person with an attributable interest in the relevant race, ethnicity, or gender category. All sources of attribution are included in this set of tables.¹⁵ The third, and final, set of tables in the report identifies the number of stations with persons who are attributable by virtue of a positional interest, meeting the five (10 or 25) percent voting interest threshold, or that have a single majority voting interest holder. Detailed information, including market size data, is contained in Appendix C and the accompanying Excel spreadsheets. Some of the information is presented in the bullets below.

A. Full Power Commercial Television

1. Full Power Commercial Television Majority Ownership Interest –Table A(1a)-A(1c)

a. Gender

- Females owned 87 (6.3 percent) of the 1,386 full power commercial television stations in 2013 and 91 stations (6.8 percent) of the 1,348 full power commercial television stations in 2011.

¹⁴ Noncommercial broadcast stations are not included in this report because they are not required to file the same Form 323 biennial ownership report as commercial stations. Noncommercial broadcast stations are required to file Form 323-E biennially, and the current form does not collect information on gender, ethnicity, or race. The Commission has sought comment on whether to modify Form 323-E in order to collect gender and ethnic and racial minority information for noncommercial broadcast stations and Low Power FM radio stations. *See Promoting Diversification of Ownership in the Broadcast Services, et al.*, MB Docket Nos.07-294, 06-121, 02-277 and 04-228, and MM Docket Nos. 01-235, 01-317 and 00-244, Report and Order and Fourth Further Notice of Proposed Rulemaking, 24 FCC Rcd 5896 (“NCE FNPRM”).

¹⁵ All sources of attributable interests are included in this second set of tables, even though the categories are not specifically identified. As described in footnote 5 above, all Form 323 data are publicly available to researchers as well as the general public so that any aspect of ownership by women and minorities can be examined.

- Males owned 1,005 stations (72.5 percent) in 2013 and 873 (64.8 percent) of stations reporting in 2011.
- 23 (1.7 percent) stations were jointly female/male owned in 2013 and 7 stations (0.5 percent) were jointly female/male owned in 2011.
- Stations with no majority interest by gender accounted for 271 stations (19.6 percent) in 2013 and 377 stations (28.0 percent) in 2011.

b. Ethnicity

- Hispanic or Latino persons owned 42 full power commercial television stations (3.0 percent) in 2013 and 39 stations (2.9 percent) in 2011.
- 17 of the 42 Hispanic-owned stations in 2013 were in a top-50 Designated Market Area (DMA), 2 stations were in DMA markets 51-100, and 23 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons owned 1,052 stations (75.9 percent) in 2013 and 930 stations (69.0 percent) in 2011.
- Stations with no majority interest by ethnicity accounted for 292 stations (21.1 percent) in 2013 and 379 stations (28.1 percent) in 2011.

c. Race

- Racial minorities owned 41 full power television stations (3.0 percent) in 2013¹⁶ and 31 stations (2.3 percent) in 2011.¹⁷
- 12 of the 41 minority-owned stations in 2013 were in a top-50 DMA, 16 stations were in DMA markets 51-100, and 13 stations were outside the top 100 markets.
- American Indian or Alaska Natives owned 11 stations (0.8 percent) in 2013 and 12 stations (0.9 percent) in 2011.
- Asians owned 19 stations (1.4 percent)¹⁸ in 2013 and 6 stations (0.5 percent) in 2011.
- Black or African Americans owned 9 stations (0.6 percent) in 2013¹⁹ and 11 stations (0.8 percent) in 2011.²⁰

¹⁶ Pursuant to a November 2012 transaction relating to the bankruptcy of Young Broadcasting, Inc., an Asian individual indirectly held a majority of the voting interests in the licensees of Young's 14 full power TV stations. *See, e.g.*, FCC File No. BTCCDT-20120809ACR (transfer of control application for Young Broadcasting of Davenport, Inc.); FCC File Nos. BOA-20131112BDB/BGI/CFQ, BOA-20131220 GMS/GQN/GTP/GVL/FWP/GYZ/HCI/HEU (2013 biennial ownership reports filed in connection with Young Broadcasting of Davenport, Inc.). As a result, this report categorizes the 14 stations as minority-held. In November 2013, control of the licensees was transferred to Media General, Inc., a publicly-traded company with no majority voting interest holder. *See, e.g.*, FCC File No. BTCCDT-20130703AEI (transfer of control application for Young Broadcasting of Davenport, Inc.). The Asian individual indirectly holds less than a majority voting interest in Media General, Inc. Accordingly, the increase in the total racial minority-owned station data from 2011 to 2013 resulted from a temporary ownership arrangement related to this series of transactions. When that arrangement was terminated in November 2013, the temporary increase in the number of racial minority-owned stations dropped back by 14.

¹⁷ The 2012 323 Report reported that the total number of racial minority owned stations as of October 1, 2011 was 30. Corrections for certain stations adjust the figure to 31. A modified spreadsheet including the reclassified data in this category for 2011, identified by Facility ID, is included with this report.

¹⁸ *See* footnote 16 *supra* which explains why the number of Asian-owned stations increased in 2013.

- Native Hawaiian or Other Pacific Islanders owned 1 station in both years.
 - Persons of two or more races owned 1 station in both years.
 - Whites owned 1,070 stations (77.2 percent) in 2013 and 935 stations (69.4 percent) in 2011.
 - Stations with no majority interest by race accounted for 275 stations (19.8 percent) in 2013 and 383 stations (28.4 percent) in 2011.
- 2. Full Power Commercial Television Attributable Ownership Interest- Table A(2a)-A(2c)**
- Females held attributable interests in 81.0 percent of stations in 2013 and 78.5 percent of stations in 2011.
 - Males held attributable interests in 99.4 percent of stations in 2013 and 99.5 percent of stations in 2011.
 - Hispanics held attributable interests in 26.0 percent of stations in 2013 and 26.5 percent in 2011.
 - Non-Hispanics held attributable interests in 97.7 percent of stations in 2013 and 96 percent of stations in 2011.
 - Racial minorities' attributable interests in stations ranged from 1.2 percent to 17.3 percent of stations in 2013 and from 3.0 percent to 22.5 percent of stations in 2011.
 - Whites held attributable interests 99.1 percent of stations in 2013 and 98.8 percent of stations in 2011.
- 3. Full Power Commercial Television Attributable Ownership By Type- Table A(3a)-(3c)**
- a. Positional Interest*
- Females held attributable interests due to their positional interests in 81.7 percent of stations in 2013 and in 77.9 percent of stations in 2011.
 - Males held attributable interests due to their positional interests in 96.1 percent of stations in 2013 and 96.3 percent of stations in 2011.
 - Hispanics held attributable interests due to their positional interests in 29.7 percent of stations in 2013 and in 30.8 percent of stations in 2011.
 - Non-Hispanics held attributable interests due to their positional interests in 98.7 percent of stations in 2013 and 96.8 percent of stations in 2011.
 - Racial minorities' attributable interests due to their positional interests ranged from 0.6 percent to 19.6 percent of stations in 2013 and from 2.4 percent to 25.8 percent of stations in 2011.

(Continued from previous page) _____

¹⁹ The number of Black/African American owned full power commercial television stations changed since the October 1, 2013 "as of" date due to ongoing transactions that closed or will close after that date. For example, some full power television stations categorized as African American-owned on October 1, 2013, were the subject of transactions occurring after that date or are subject to pending transactions. *See, e.g.*, FCC File Nos. BALCDT-20131226ACY/ADC, BTCCDT-20131231ACA, BTCCDT-20131119BDP.

²⁰ The 2012 323 Report reported that the total number of African American owned full power commercial television stations as of October 1, 2011 was 10. Corrections for certain stations adjust the figure to 11. A modified spreadsheet including the reclassified data in this category for 2011, identified by Facility ID, is included with this report.

- Whites held attributable interests due to their positional interests in 99.5 percent of stations in 2013 and 99.4 percent of stations in 2011.

b. Single Majority Voting Interest

- Females were single majority voting interest holders in 51 stations in 2013 and in 50 stations in 2011.
- Males were single majority voting interest holders in 392 stations in 2013 and in 439 stations in 2011.
- Hispanics were single majority voting interest holders in 26 stations in 2013 and in 25 stations in 2011.
- Non-Hispanics were single majority voting interest holders in 417 stations in 2013 and 464 stations in 2011.
- Racial minorities were single majority voting interest holders in 29 stations in 2013 and in 18 stations in 2011.
- Whites were single majority voting interest holders in 414 stations in 2013 and in 471 stations in 2011.

B. Class A Television

1. Class A Television Majority Ownership Interest - Table B(1a)-B(1c)

a. Gender

- Females owned 30 stations (7.6 percent) of the 393 Class A television stations in 2013 and 35 stations (8.6 percent) of the 409 Class A television stations in 2011.
- Males owned 319 stations (81.2 percent) in 2013 and 282 stations (69.0 percent) in 2011.
- 2 stations (0.5 percent) were jointly female/male owned in 2013 and 4 stations (1.0 percent) were jointly female/male owned in 2011.
- Stations with no majority interest by gender accounted for 42 stations (10.7 percent) in 2013 and 88 stations (21.5 percent) in 2011.

b. Ethnicity

- Hispanic or Latino persons owned 29 stations (7.4 percent) in 2013 and 31 stations (7.6 percent) in 2011.
- 20 of the 29 Hispanic-owned stations in 2013 were in a top-50 DMA, 2 stations were in DMA markets 51-100, and 7 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons owned 303 stations (77.1 percent) in 2013 and 290 stations (70.9 percent) in 2011.
- Stations with no majority interest by ethnicity accounted for 61 stations (15.5 percent) in 2013 and 88 stations (21.5 percent) in 2011.

c. Race

- Racial minorities owned 23 Class A television stations (5.9 percent) in 2013 and 26 stations (6.3 percent) in 2011.
- 13 of the 23 minority-owned stations in 2013 were in a top-50 DMA, 2 stations were in DMA markets 51-100 and 8 stations were outside the top 100 markets.
- American Indian or Alaska Natives owned 2 stations (0.5 percent) in 2013 and 4 stations (1.0 percent) in 2011.

- Asians owned 6 stations (1.5 percent) in 2013 and 8 stations (2.0 percent) in 2011.
 - Black or African Americans owned 8 stations (2.0 percent) in 2013 and 69 stations (1.5 percent) in 2011.
 - Native Hawaiian or Other Pacific Islanders owned no stations in both years.
 - Persons of two or more races owned 7 stations (1.8 percent) in 2013 and 8 stations in (2.0 percent) in 2011.
 - Whites owned 326 stations (83.0 percent) in 2013 and 294 stations (71.9 percent) in 2011.
 - Stations with no majority interest by race accounted for 44 stations (11.2 percent) in 2013 and 89 stations (21.8 percent) in 2011.
- 2. Class A Television Attributable Ownership Interest – Table B(2a)-B(2c)**
- Females held attributable interests in 60.8 percent of stations in 2013 and 56.5 percent of stations in 2011.
 - Males held attributable interests in 97.4 percent of stations in 2013 and 97.5 percent of stations in 2011.
 - Hispanics held attributable interests in 30.5 percent of stations in 2013 and 25.8 percent of stations in 2011.
 - Non-Hispanics held attributable interests in 95.0 percent of stations in 2013 and 88.0 percent of stations in 2011.
 - Racial minorities' attributable interests in stations ranged from 0 percent to 15.3 percent of stations in 2013, and ranged from 0 percent to 11.8 percent of stations in 2011.
 - Whites held attributable interests in 94.5 percent of stations in 2013 and 94.5 percent of stations in 2011.
- 3. Class A Television Attributable Ownership By Type - Table B(3a)-B(3c)**
- a. Positional Interest*
- Females held attributable interests due to their positional interests in 65.8 percent of stations in 2013 and in 64.4 percent of stations in 2011.
 - Males held attributable interests due to their positional interests in 89.4 percent of stations in 2013 and 86.2 percent of stations in 2011.
 - Hispanics held attributable interests due to their positional interests in 35.2 percent of stations in 2013 and in 36.2 percent of stations in 2011.
 - Non-Hispanics held attributable interests due to their positional interests in 97.0 percent of stations in 2013 and 88.3 percent of stations in 2011.
 - Racial minorities' attributable interests due to their positional interests ranged from 0 percent to 15.5 percent of stations in 2013 and from 0 percent to 22.9 percent of stations in 2011.
 - Whites held attributable interests due to their positional interests in 95.5 percent of stations in 2013 and 94.2 percent of stations in 2011.
- b. Single Majority Voting Interest*
- Females were single majority voting interest holders in 21 Class A television stations in 2013 and in 22 stations in 2011.

- Males were single majority voting interest holders in 153 stations in 2013 and in 183 stations in 2011.
- Hispanics were single majority voting interest holders in 27 stations in 2013 and in 27 stations in 2011.
- Non-Hispanics were single majority voting interest holders in 147 stations in 2013 and in 178 stations in 2011.
- Racial minorities were single majority voting interest holders in 21 stations in 2013 and in 20 stations in 2011.
- Whites were single majority voting interest holders in 154 stations in 2013 and in 185 stations in 2011.

C. Low Power Television

1. Low Power Television Majority Ownership Interest- Table C(1a)-C(1c)

a. Gender

- Females owned 187 (14.9 percent) of the 1,258 low power television (LPTV) stations in 2013 and 185 stations (14.8 percent) of the 1,253 low power television stations in 2011.
- Males owned 927 stations (73.7 percent) in 2013 and 850 stations (67.8 percent) in 2011.
- 5 stations (0.4 percent) were jointly female/male owned in 2013 and 3 stations (0.2 percent) in 2011.
- Stations with no majority interest by gender accounted for 139 stations (11.0 percent) in 2013 and 215 stations (17.2 percent) in 2011.

b. Ethnicity

- Hispanic/Latino persons owned 126 LPTV stations (10.0 percent) in 2013 and 120 stations (9.6 percent) in 2011.
- 61 of the 126 Hispanic-owned stations in 2013 were in a top-50 DMA market, 13 stations were in DMA markets 51-100, and 52 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons owned 968 stations (76.9 percent) in 2013 and 912 stations (72.8 percent) in 2011.
- Stations with no majority interest by ethnicity accounted for 164 stations (13.0 percent) in 2013 and 221 stations (17.6 percent) in 2011.

c. Race

- Racial minorities owned 41 LPTV stations (3.3 percent) in 2013 and 70 stations (5.6 percent) in 2011.
- 18 of the 41 minority-owned stations in 2013 were in a top-50 DMA market, 4 stations were in DMA markets 51-100, and 19 stations were outside the top 100 markets.
- American Indian or Alaska Natives owned 1 station (0.1 percent) in 2013 and 4 stations (0.3 percent) in 2011.
- Asians owned 14 stations (1.1 percent) in 2013 and 28 stations (2.2) in 2011.
- Black or African Americans owned 16 stations (1.3 percent) in 2013 and 16 stations (1.3 percent) in 2011.

- Native Hawaiian or Other Pacific Islanders owned no stations in 2013 and 2 stations (0.2 percent) in 2011.
 - Persons of two or more races owned 10 stations (0.8 percent) in 2013 and 20 stations (1.6 percent) in 2011.
 - Whites owned 1,060 stations (84.3 percent) in 2013 and 954 stations (76.1 percent) in 2011.
 - Stations with no majority interest by race accounted for 157 stations (12.5 percent) in 2013 and 229 stations (18.3 percent) in 2011.
- 2. Low Power Television Attributable Ownership Interest - Table C(2a)-C(2c)**
- Females held attributable interests in 59.2 percent of stations in 2013 and 52.9 percent of stations in 2011.
 - Males held attributable interests in 95.6 percent of stations in 2013 and 97.5 percent of stations in 2011.
 - Hispanics held attributable interests in 24.3 percent of stations in 2013 and 16.9 percent of stations in 2011.
 - Non-Hispanics held attributable interests in 91.6 percent of stations in 2013 and 90.8 percent of stations in 2011.
 - Racial minorities' attributable interests in stations ranged from less than 0.3 percent to 13.2 percent of stations in 2013 and from less than 0.4 percent to 6.7 percent of stations in 2011.
 - Whites held attributable interests in 96.6 percent of stations in 2013 and 94.6 percent of stations in 2011.
- 3. Low Power Television Attributable Ownership By Type - Table C(3a)-C(3c)**
- a. Positional Interest*
- Females held attributable interests due to their positional interests in 51.3 percent of stations in 2013 and 58.3 percent of stations in 2011.
 - Males held attributable interests due to their positional interests in 93.2 percent of stations in 2013 and 87.7 percent of stations in 2011.
 - Hispanics held attributable interests due to their positional interests in 25.7 percent of stations in 2013 and 20.2 percent of stations in 2011.
 - Non-Hispanics held attributable interests due to their positional interests in 89.9 percent of stations in 2013 and 93.6 percent of stations in 2011.
 - Racial minorities' attributable interests due to their positional interests ranged from 0.2 percent to 8.7 percent of stations in 2013 and from 0.7 percent to 13.3 percent of stations in 2011.
 - Whites held attributable interests due to their positional interests in 96.2 percent of stations in 2013 and 92.4 percent of stations in 2011.
- b. Single Majority Voting Interest*
- Females were single majority voting interest holders in 142 LPTV stations in 2013 and in 123 stations in 2011.

- Males were single majority voting interest holders in 404 stations in 2013 and in 462 stations in 2011.
- Hispanics were single majority voting interest holders in 98 stations in 2013 and in 93 stations in 2011.
- Non-Hispanics were single majority voting interest holders in 448 stations in 2013 and 492 stations in 2011.
- Racial minorities were single majority voting interest holders in 37 stations in 2013 and in 62 stations in 2011.
- Whites were single majority voting interest holders in 509 stations in 2013 and in 523 stations in 2011.

D. Commercial AM Radio

1. Commercial AM Radio Majority Ownership Interest - Table D(1a)-D(1c)

a. Gender

- Females owned 310 (8.3 percent) of 3,689 AM radio stations in 2013 and 300 (7.8 percent) of 3,830 AM radio stations in 2011.
- Males owned 2,737 stations (73.2 percent) in 2013 and 2,841 stations (74.2 percent) in 2011.
- 80 stations (2.1 percent) were jointly female/male owned in 2013 and (1.7 percent) were jointly female/male owned in 2011.
- Stations with no majority interest by gender accounted for 610 stations (16.3 percent) in 2013 and 625 stations (16.3 percent) in 2011.
- ***Ethnicity***
- Hispanic or Latino persons owned 194 AM stations (5.2 percent) in 2013 and 172 stations (4.5 percent) in 2011.
- Of 194 Hispanic-owned stations in 2013, 140 stations were in a top 100 Arbitron metro market, 27 stations were in Arbitron metro markets 101-274, and 27 stations were outside all Arbitron metro markets.
- Non-Hispanic/Latino persons owned 2,912 stations (77.9 percent) in 2013 and 3,020 stations (78.9 percent) in 2011.
- Stations with no majority interest by ethnicity accounted for 631 stations (16.9 percent) in 2013 and 638 stations (16.7 percent) in 2011.

b. Race

- Racial minorities owned 225 AM radio stations (6.0 percent) in 2013 and 237 stations (6.2 percent) in 2011.
- Of the 225 minority owned stations in 2013, 136 stations were in a top-100 Arbitron metro market, 43 stations were in Arbitron metro markets 100-274, and 46 stations were outside all Arbitron metro markets.
- American Indians or Alaska Natives owned 12 stations (0.3 percent) in 2013 and 16 (0.4 percent) in 2011.
- Asians owned 104 stations (2.8 percent) in 2013 and 100 stations (2.6 percent) in 2011.

- Black or African Americans owned 93 stations (2.5 percent) in 2013 and 106 stations (2.8 percent) in 2011.
 - Native Hawaiian or Other Pacific Islanders owned 9 stations (0.2 percent) in 2013 and 6 stations (0.2 percent) in 2011.
 - Persons of two or more races owned 7 stations (0.2 percent) in 2013 and 9 stations (0.2 percent) in 2011.
 - Whites owned 2,893 stations (77.4 percent) in 2013 and 2,960 stations (77.3 percent) in 2011.
 - Stations with no majority interest by race accounted for 619 stations (16.6 percent) in 2013 and 633 stations (16.3 percent) in 2011.
- 2. Commercial AM Radio Attributable Ownership Interest - Table D(2a)-D(2c)**
- Females held attributable interests in 61.6 percent of stations in 2013 and in 64.0 percent of stations in 2011.
 - Males held attributable interests in 96.4 percent of stations in 2013 and in 96.7 percent of stations in 2011.
 - Hispanics held attributable interests in 9.0 percent of stations in 2013 and 10.2 percent of stations in 2011.
 - Non-Hispanics held attributable interests in 94.8 percent of stations in 2013 and 95.1 percent of stations in 2011.
 - Racial Minorities' attributable interests ranged from 0.6 percent to 17.2 of stations in 2013 and ranged from 0.5 percent to 16.5 percent in 2011.
 - Whites held attributable interests in 94.7 percent of stations in 2013 and 94.7 percent of stations in 2011.
- 3. Commercial AM Radio Attributable Ownership By Type - Table D(3a)-D(3c)**
- a. Positional Interest*
- Females held attributable interests due to their positional interests in 68.6 percent of stations in 2013 and in 71.6 percent of stations in 2011.
 - Males held attributable interests due to their positional interests in 82.5 percent of stations in 2013 and 85.1 percent of stations in 2011.
 - Hispanics held attributable interests due to their positional interests in 8.3 percent of stations in 2013 and in 11.3 percent of stations in 2011.
 - Non-Hispanics held attributable interests due to their positional interest in 96.8 percent of stations in 2013 and 95.2 percent of stations in 2011.
 - Racial minorities' attributable interests due to their positional interests ranged from 0.2 percent of stations to 26.6 percent of stations in 2013 and from 0.2 percent to 28.3 percent of stations in 2011.
 - Whites held attributable interests due to their positional interests in 95.8 percent of stations in 2013 and 96.1 percent of stations in 2011.
- b. Single Majority Voting Interest*
- Females were single majority voting interest holders in 230 AM radio stations in 2013 and in 225 stations in 2011.

- Males were single majority voting interest holders in 1,771 stations in 2013 and in 1,755 stations in 2011.
- Hispanics were single majority voting interest holders in 147 stations in 2013 and in 134 stations in 2011.
- Non-Hispanics were single majority voting interest holders in 1,854 stations in 2013 and 1,846 stations in 2011.
- Racial minorities were single majority voting interest holders in 201 stations in 2013 and in 208 stations in 2011.
- Whites were single majority voting interest holders in 1,793 stations in 2013 and in 1,772 stations in 2011.

E. Commercial FM Radio

1. Commercial FM Radio Majority Ownership Interest - Table E(1a)-E(1c)

a. Gender

- Females owned 383 (6.7 percent) of 5,714 FM radio stations in 2013 and 323 (5.8 percent) of 5,611 FM radio stations in 2011.
- Males owned 4,226 stations (74.0 percent) in 2013 and 4,290 stations (76.5 percent) in 2011.
- 143 stations (2.5 percent) were jointly female/male owned in 2013 and 68 stations (1.2 percent) were jointly owned in 2011.
- Stations with no majority interest by gender accounted for 962 stations (16.8 percent) in 2013 and 930 stations (16.6 percent) in 2011.

b. Ethnicity

- Hispanic or Latino persons owned 180 stations (3.2 percent) in 2013 and 151 stations (2.7 percent) in 2011.
- Of 180 Hispanic owned stations in 2013, 88 stations were in a top-100 Arbitron metro market, 40 stations were in Arbitron metro markets 101-274, and 52 stations were outside all Arbitron metro markets.
- Non-Hispanic/Latino persons owned 4,529 stations (79.3 percent) in 2013 and 4,524 stations (80.6 percent) in 2011.
- Stations with no majority interest by ethnicity accounted for 1,005 stations (17.6 percent) in 2013 and 936 stations (16.7 percent) in 2011.

c. Race

- Racial minorities owned 169 FM radio stations (3.0 percent) in the 2013 and 196 stations (3.5 percent) in 2011.
- Of the 169 minority owned stations in 2013, 38 stations were in a top 100 Arbitron metro market, 54 stations were in Arbitron metro markets 101-274, and 77 stations were outside of all Arbitron metro markets.
- American Indian or Alaska Natives owned 23 stations (0.4 percent) in 2013 and 28 stations (0.5 percent) in 2011.
- Asians owned 41 stations (0.7percent) in 2013 and 45 stations (0.8 percent) in 2011.

- Black or African Americans owned 73 stations (1.3 percent) in 2013 and 93 stations (1.7 percent) in 2011.
- Native Hawaiian or Pacific Islander owned 26 stations (0.5 percent) in 2013 and 28 stations (0.5 percent) in 2011.
- Persons of two or more races owned 6 stations (0.1 percent) in 2013 and 8 stations (0.1 percent) in 2011.
- Whites owned 4,570 stations (80.0 percent) in 2013 and 4,467 stations (79.6 percent) in 2011.
- Stations with no majority interest by race accounted for 975 stations (17.1 percent) in 2013 and 948 stations (16.9 percent) in 2011.

2. Commercial FM Radio Attributable Ownership Interest - Table E(2a)-E(2c)

- Females held attributable interests in 64.6 percent of stations in 2013 and 66.6 percent of stations in 2011.
- Males held attributable interests in 97.0 percent of stations in 2013 and 97.6 percent of stations in 2011.
- Hispanics held attributable interests in 8.2 percent of stations in 2013 and 8.4 percent of stations in 2011.
- Non-Hispanics held attributable interests in 97.5 percent of stations in 2013 and 97.2 percent of stations in 2011.
- Racial minorities' attributable interests in stations ranged from 0.8 percent of stations to 19.3 percent of stations in 2013 and from 0.3 percent to 21.1 percent of stations in 2011.
- Whites had attributable interests in 97.8 percent of stations in 2013 and 97.3 percent of stations in 2011.

3. Commercial FM Radio Attributable Ownership Type - Table E(3a)-E(3c)

a. Positional Interest

- Females held attributable interests due to their positional interest in 71.2 percent of FM radio stations in 2013 and in 75.1 percent of stations in 2011.
- Males held attributable interests due to their positional interests in 87.5 percent of stations in 2013 and 89.2 percent of stations in 2011.
- Hispanics held attributable interests due to their positional interests in 10.2 percent of stations in 2013 and 11.0 percent of stations in 2011.
- Non-Hispanics held attributable interests due to their positional interests in 98.2 percent of stations in 2013 and 97.1 percent of stations in 2011.
- Racial minorities' attributable interests due to their positional interests ranged from 0.3 percent of stations to 32.6 percent of stations in 2013 and from 0.1 percent to 34.3 percent of stations in 2011.
- Whites held attributable interests due to their positional interests in 97.8 percent of stations in 2013 and 98.1 percent of stations in 2011.

b. Single Majority Voting Interest

- Females were single majority voting interest holders in 319 FM radio stations in 2013 and 271 stations in 2011.

- Males were single majority voting interest holders in 2,408 stations in 2013 and in 2,344 stations in 2011.
- Hispanics were single majority voting interest holders in 153 stations in 2013 and in 126 stations in 2011.
- Non-Hispanics were single majority voting interest holders in 2,574 stations in 2013 and 2,849 stations in 2011.
- Racial minorities were single majority voting interest holders in 144 stations in 2013 and in 175 stations in 2011.
- Whites were single majority voting interest holders in 2,584 stations in 2013 and in 2,440 stations in 2011.

III. CONCLUSION

10. With this report the Media Bureau provides an analysis of broadcast ownership data, including data related to ownership by racial and ethnic minorities and women, based on the Commission's collection of such information during the third biennial reporting period using the revised Form 323 and reflecting attributable ownership interests as of October 1, 2013. The Bureau expects that information from subsequent biennial ownership filings will allow for additional analysis of broadcast ownership, including trends related to gender, ethnicity, and race.

IV. ORDERING CLAUSE

11. IT IS ORDERED that this Report be issued pursuant to authority contained in Sections 1, 2(a), 4(i), 257, 303, and 307-310 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152(a), 154(i), 257, 303, and 307-310.

FEDERAL COMMUNICATIONS COMMISSION

William T. Lake
Chief, Media Bureau

APPENDIX A Glossary of Terms

Attributable ownership interest: An interest that is attributable pursuant to Note 2 of Section 73.3555 of the Commission's rules (47 C.F.R. § 73.3555 Note 2).

Combination: This category covers situations in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of either the same ethnicity or race both separately exceed 50 percent (*e.g.*, a station where a wife and husband, both Hispanic/Latino, each hold 100% as joint tenants(s)).

Controlling interest: A single individual holds a majority voting interest (*i.e.*, more than 50 percent) in the licensee or its controlling parent or parents.

Insufficient data to identify: The computer code was unable to process the data submitted to the Commission in these stations' biennial filings.

Joint Female/Male: A situation in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) both separately exceed 50 percent (*e.g.*, a station where a wife and husband each own 100 percent of the station as joint tenants).

Majority interest: A group of individuals of the same gender, ethnicity, or race, collectively hold an attributable voting interest in the licensee that exceeds 50 percent.

No majority interest: No individual or group of individuals of the same race, ethnicity, or gender holds, either individually or collectively, an attributable voting interest in the licensee that exceeds 50 percent. The computer code may have included some stations in this category if the stations' biennial filings contained data errors or inaccuracies that caused the computer code to be unable to properly process the data submitted to the Commission.

Not filed: This category includes situations where (a) the station's licensee did not file a biennial 323 form (some of these licensees filed a 323-E form instead), or (b) the Commission's database (CDBS) was unable to accept the licensee's filing as a result of a fee issue, or (c) the licensee's filing could not be processed by the computer code.

Positional Interest: Positional interest data reported herein include all the categories listed on Form 323. These categories are as follows: Officer, Director, General Partner, Limited Partner, LC/LLC/PLLC Member, Owner, Stockholder, Attributable Creditor, Attributable Investor, Other (please specify). Stations with at least one person with a positional interest are reported in column one in Table 3 if the person has less than a 5 percent voting interest.

Ethnicity Definition (Hispanic or Latino): A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish Culture or origin, regardless of race.

Race Definitions:

- *American Indian or Alaska Native:* A person having origins in any of the original peoples of North America and South America including Central America, and who maintains tribal affiliation or community attachment.

- *Asian*: A person having origins in any of the original peoples of the Far East, Southeast Asia, or Indian Subcontinent including Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Island, Thailand, and Vietnam.
- *Black or African American*: A person having origins in any of the black racial groups of Africa.
- *Native Hawaiian or Other Pacific Islander*: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- *Two or more races*: A person having origins in two or more races.
- *White*: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

APPENDIX B Explanatory Notes

Description of the Tables

Tables 1(a)(b)(c) identifies the number of stations for which an individual or a group of individuals of the same race, ethnicity, or gender hold, either individually or collectively, a majority of the voting interests in the licensee, that is, their voting interests exceed 50 percent. A station identified as having no majority interest does not necessarily mean that no particular classification of persons has a majority interest in the station, only that this cannot be determined from the reported Form 323 data as submitted. Each station is uniquely identified in this table.

Tables 2(a)(b)(c) identifies the number of stations that have at least one person, by race, ethnicity, or gender, with an attributable interest. Each station may appear in one or more categories in this table.

Tables 3(a)(b)(c) identifies the number of stations that have at least one person, by race, ethnicity, or gender, with an attributable voting interest by virtue of a positional interest; or by virtue of at least a five percent, 10 percent, or 25 percent voting interest. Each station may appear in one or more of these categories. Table 3 also identifies the number of stations that have a single majority interest holder (one person holds more than 50 percent of the voting interests).

Manual adjustments to the data for:

Full power commercial television tables

1. Data for 2013 based on CDBS as of April 16, 2014.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined a number of filings, all but two of which fell into these categories, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 190 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; 13 stations were reassigned to White, non-Hispanic/Latino female; 5 stations were reassigned to White, Hispanic/Latino male; 1 station was reassigned to Black/African American, non-Hispanic/Latino male; and 102 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
3. The computer code was unable to account for ownership combinations where the aggregate votes of neither gender exceed 50 percent, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same race together exceed 50 percent. In such cases the stations are identified as no majority interest in Table 1. Two stations that met these criteria were reassigned to Black/African American combination, non-Hispanic/Latino combination, joint male/female in Table 1.
4. Commission's staff's additional review of the 2011 data subsequent to release of the *2012 323 Report* determined that three stations were incorrectly identified. Two additional stations should have been identified as Black/African American owned stations (Facility IDs 2370 and 83270) and one station was identified as Black/African American owned when it should not have been so identified (Facility ID 13792). A modified spreadsheet including the reclassified data in this category for 2011, identified by its Facility ID, is included with this report.

Class A television tables

1. Data for 2013 based on CDBS as of March 26, 2014.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined a number of filings, all but one of which fell into these categories, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In one case, this involved moving a station that was missing ownership reports into the proper ownership category based on staff analysis of the ownership of commonly-owned stations. In all, 33 stations in Table 1 were reassigned to White, non-Hispanic male and two stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

Low power television tables

1. Data for 2013 based on CDBS as of March 25, 2014.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined a number of filings, many of which fell into these categories, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In some cases, this involved moving certain stations that were missing one or more reports into the proper ownership categories based on staff analysis of the ownership of commonly-owned stations. In all, 72 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; four stations were reassigned to White, non-Hispanic/Latino female; one station was reassigned to White, Hispanic/Latino male; and nine stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
3. The computer code was unable to account for ownership combinations where the aggregate votes of neither gender exceed 50 percent, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same race together exceed 50 percent. In such cases the stations are identified as no majority interest in Table 1. One station that met these criteria was reassigned to Black/African American combination, non-Hispanic/Latino combination, joint male/female in Table 1.
4. The response rate in 2013 for LPTV stations is 66 percent, up from 60 percent for the 2011 filing period. LPTV stations, unlike television translator stations, can originate programming if they choose to do so. Nonetheless, many LPTV stations, like television translators, merely rebroadcast the signal of another TV station. Television translators are exempt from the Form 323 biennial filing requirement, and Commission's staff's inquiry of a random sample of LPTV stations subsequent to the 2011 filing window, suggested that on that basis many LPTV licensees that do not originate programming fail to file Form 323. Parties are reminded, however, that the Form 323 filing requirement applies to stations based on regulatory classification. Accordingly, stations classified as LPTV stations must submit biennial ownership reports regardless of whether or not they originate programming.

Commercial AM radio station tables

1. Data for 2013 based on CDBS as of March 27, 2014.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined many of the filings for stations that fell into these categories based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 42 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; six stations were reassigned to White, non-Hispanic/Latino female; and 32 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
3. A number of AM radio stations (approximately 230) operate as noncommercial, educational stations. These stations are required to file a Form 323-E ownership report rather than a Form 323. On this basis, these stations are identified as "not filed" in the 2013 tables.

Commercial FM radio station tables

1. Data for 2013 based on CDBS as of April 17, 2014.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined many of the filings for stations that fell into these categories based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 108 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; seven stations were reassigned to White, non-Hispanic/Latino female; 10 stations were reassigned to White, Hispanic/Latino male; and three stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
